

FAMILY ENGAGEMENT LAB

PRIVACY POLICY

Family Engagement Lab (“Family Engagement Lab,” “we,” “our,” or “us”) understands that privacy is immensely important to our school partners (“Schools/School Partner”) who use our services and to students whose information we may access on behalf of a School. We provide a tool that enables our teachers to directly communicate with our parent stakeholders. At all times, we are committed to protecting your privacy.

This Privacy Policy explains how we collect, use, and share the personal information we collect from visitors to our website, web-based software platform and related services, including the FASTalk tool (collectively, our “Service”); and most importantly, how we protect your data. By accessing or using our Service, you signify that you have read, understood and agree to our collection, storage, use and disclosure of your personal information as described in this Privacy Policy and our Terms of Use.

We provide the Service on behalf of organizations such as schools and school districts (each, a “School Partner”), to enable parents to engage directly with their children’s teachers and promote at-home parent involvement and parent-teacher collaboration. Each workspace is created and controlled by the School Partner, and therefore any User Content (defined below) you submit to the Service is also controlled by the School Partner. Where we collect or process your information, we do so on behalf of the School Partner. “You” or “Your” means a user of the Service, which could refer to an individual, a School Partner, an individual associated with a School Partner account, or any other authorized user of the Service.

1. How We Collect and Use Information

We collect the following types of information:

Information about Schools/Information you provide to us directly: We may collect and store personal information when you register for our Service or provide it to us in some other manner. For example, if you are a teacher and you register with the Service for FASTalk, we may collect your name, phone number, e-mail address, password and information about your classroom (including information about parents). If you are a School Partner, we also collect information about your school/district, such as school name and contact information, as well as any information you provide about your teachers, including your teachers’ contact information. We may also collect any communications you exchange with us, any information you provide if you take part in any interactive features of the Service, and any other information you provide to us.

Student Data Information: Through the course of providing its Service to a School, we may have access to personally identifiable information about students (“Student Data”) that is provided by the School, by the parent or guardian, or by the Student. Depending on the Service selected by the School, a School may

authorize us to receive Student Data from the Service used by the School. We have access to Student Data only as requested by the School and only for the purposes of performing Services on the School's behalf. The type of Student Data we collect will depend on how the School uses and connects through the Service. In all instances, we receive Student Data only from the School and never interact with the student directly.

Data collected through the use of the Service. We collect information about how you use the Service, your actions on the Service, and content you post to the Service, including the groups you belong to, your interaction with others on the Service, and any content you provide through text messages or other functionality ("User Content"). Please remember that we may, but we have no obligation to, monitor, record, and store User Content in order to protect your safety or the safety of other users, to assist with regulatory or law enforcement efforts, or to protect and defend our rights and property. By using the Service, you consent to the recording, storage and disclosure of such communications you send or receive for these purposes.

We use this information (i) to operate, maintain, and provide to you the features and functionality of the Service; (ii) to send you Service-related emails or messages (e.g., account verification, messages and schedules, change or update to features of the Service, technical and security notices); (iii) to analyze trends to better understand how users are using the Service and improve them; (iv) to communicate directly with you, such as to send you promotional email messages about products and services that may be of interest to you; and (v) to prevent or address service, security, technical issues or at a Customer's request in connection with customer support matters. For more information about your communication preferences, see "Control Over Your Information" below.

In the event of a change of control: If we sell, divest or transfer our business, we will not transfer personal information of our customers unless the new owner intends to maintain and provide the Service as a going concern, and provided that the new owner has agreed to data privacy standards no less stringent

than our own. In such cases, we will provide you with notice and an opportunity to opt-out of the transfer of personally identifiable Student Data;

Disclosures Under Special Circumstances. If we change the policy in a material manner, for example, if we seek to use personal information in a materially different way than we had previously, we will provide at least 30 days notice to the Schools so that you have sufficient time to evaluate the change in practice.
